### Engoben/Glasuren

Neben den Standardfarben sind auch Engoben, Edelengeben und Glasuren realisierbar. Sie sprechen vor allem farblich ambitionierte Gestalter an. Ebenfalls sind leuchtende Farbglasuren und Metallic-Effekte möglich.

Engobes/Glazes

In addition to the standard colours, engobes, special engobes and glazes can also be realised. They primarily appeal to colour-conscious designers. Luminous colour glazes and metallic effects are also possible.
